

January 2022 Training Workshop – Working Agenda

Goals:

1. Transmit knowledge about designing and conducting ePCTs among PLWD and care partners in health care systems that integrates considerations of health equity
2. Problem-solve challenges experienced by trainees in their current or planned ePCTs
3. Facilitate networking between trainees and IMPACT investigators; engage trainees in networking experiences with investigators and peers within the IMPACT community and help foster future collaborations

This year's modules will focus on:

- Integrating **health equity** into design of ePCTs
- Common **ethical and regulatory** challenges conducting ePCTs in PLWD and care partners
- Opportunities and challenges **conducting ePCTs with care partners** of PLWD
