

**NIA IMPACT**  
**COLLABORATORY**  
TRANSFORMING DEMENTIA CARE

## Grand Rounds

The National Institute on Aging (NIA) Imbedded Pragmatic Alzheimer's Disease (AD) and AD-related dementias (ADRD) Clinical Trials (IMPACT) Collaboratory works to build the nation's capacity to conduct pragmatic clinical trials (ePCTs) of interventions embedded within health care systems for people living with dementia and their care partners. The IMPACT Collaboratory hosts free webinars on the 3rd Thursday of each month at 12 noon ET addressing these issues. If you are not yet on our mailing list, [join here](#) to receive IMPACT updates and reminders. Registration is not required, and a recording of the webinar as well as a companion podcast will be available after the event on our website, [impactcollaboratory.org](http://impactcollaboratory.org).

### ***“Results and lessons learned from the Hospice Advanced Dementia Symptom Management and Quality of Life (HAS-QOL) embedded pragmatic clinical trial”***

**Ab Brody, PhD, RN, FAAN**

*Mathy Mezey Professor of Nursing, Professor of Medicine  
Associate Director, Hartford Institute for Geriatric Nursing  
New York University*

**Thursday, June 15, 2023**

**12:00 – 1:00 pm ET**

Dr. Ab Brody, PhD, RN, FAAN, is the Pilot Core Lead of the NIA IMPACT Collaboratory and faculty at the NYU Rory Meyers College of Nursing and NYU Grossman School of Medicine. He works at the intersection of geriatrics, palliative care, quality and equity. The primary goal of his research, clinical, and policy pursuits is to improve the quality of care for older adults with serious illnesses generally, and AD/ADRD specifically, wherever they reside. The HAS-QOL Trial was a 25-site ePCT of a quality improvement program specifically tailored to improve care for persons living with dementia and their care partners receiving hospice across care settings. In this talk he will discuss results and lessons learned from the implementation of this trial that can be utilized for future ePCTs.
