

NIA IMPACT
COLLABORATORY
TRANSFORMING DEMENTIA CARE

IMPACT Grand Rounds

The National Institute on Aging (NIA) Imbedded Pragmatic Alzheimer's Disease (AD) and AD-related dementias (ADRD) Clinical Trials (IMPACT) Collaboratory works to build the nation's capacity to conduct pragmatic clinical trials (ePCTs) of interventions embedded within health care systems for people living with dementia and their care partners. The IMPACT Collaboratory hosts free webinars on the 3rd Thursday of each month at 12 noon ET addressing these issues. If you are not yet on our mailing list, [join here](#) to receive IMPACT updates and reminders. Registration is not required, and a recording of the webinar as well as a companion podcast will be available after the event on our website, impactcollaboratory.org.

“Current and Future use of RE-Aim and its PRISM Expansion and their Application in Pragmatic Trials”

Russell Glasgow, PhD

*Research Professor, Department of Family Medicine and
Director, ACCORDS Dissemination and Implementation Science (D&I) Program*

Thursday, June 20, 2024

12:00 – 1:00 pm ET

Russell Glasgow, PhD is an internationally known expert in studying ways to improve the translation of research into the health care delivery system. He is a driving force behind the planning and evaluation model RE-AIM (Reach, Effectiveness, Adoption, Implementation, and Maintenance) and its PRISM expansion to address contextual and health equity issues as well as to estimate and determine public health impact. He focuses on designing for dissemination and implementation of feasible, cost-effective, multi-level prevention and illness management programs and methods to promote transparent reporting of implementation outcomes. He has considerable experience in leading research teams and training researchers, including mentorship in implementation science. He has been a primary developer of multiple training programs in D&I science locally and nationally.
